

ANNOUNCING THE ALL NEW
CVDPN Free Community Disaster Preparation Training Sessions
“No Community Left Behind”

Thanks to the generosity of our sponsor, Southern California Edison, CVDPN is proud to offer a brand-new Community Disaster Preparation seminar for free. You will take away a model and a manual with the step-by-step tools to create your personalized community disaster plan. These sessions are estimated to run approximately 6 hours in length. Due to popularity and high demand, we ask that only one individual from each neighborhood, non-HOA community, and HOA's attend.

These sessions will include personal instruction, samples, templates, resources, and other lifesaving materials. Participants will leave equipped with the foundational model and a manual to use in creating their own community disaster plan personalized to fit their community.

Why this new approach? CVDPN is paying attention to your requests. **“I took the training, but I need help creating my community disaster plan, can you help me?”**

This creation of this new program has been in process since January, 2022. We are excited to have this new updated, inclusive, community disaster plan and editable foundational manual, providing you with what you asked for!

Dates: Complimentary refreshments (pastries, coffee, fruit) and lunch (sandwiches and sodas) will be provided.

Thursday, October 27, 2022, 9am - 3pm or
Thursday, December 1, 2022, 9am - 3pm

These **free** Sessions will be held in Palm Desert at the RAP Regional Access Project building, 41550 Eclectic St., (which is the first (south) turn west of Cook Street on Hovley. Due to possible construction on Cook Street, it would be better to approach Eclectic St. by turning left on Hovley off Portola, and then right on Eclectic St.)

Registration for the seminars is now open on the CVDPN website www.cvdpn.org
